There was a long and busy session of the Common Council last night. It was the monthly meeting, and there was so much to be done that the body did not adjourn until after 1 o'clock this morning. Seventeen members answered to roll-call, and two thirds being needed, the Sergeant-at-Arms was sent out for the absentees, three of whom soon arrived.

The Street Committee's recommendation that allegations be heard with reference line. laying granolithic pavement on the sidewalks and roadbed around The Jefferson was adopted, as was the ordinance from the same committee requesting the street-car company to sell half-rate tickets for children going to and from school. The Street Committee reported that it would cost \$21,625.78 to lay granolithic

By a vote of 29 to 1 the Council adopted the ordinance providing for the removal of all overhead telegraph, telephone, and electric wires, except trolley wires, on the following streets: On Broad from electric wires, except trolley wires, the following streets: On Broad from Adams to Eleventh streets; on Bank from Ninth to Twelfth streets; on Main and Cary from Seventh to Fourteenth streets; on Seventh Eighth, Ninth, Teath, Eleventh, Twelfth, Thirteenth, and Fourteenth streets.

MONEY FOR THE PARKS.

The Finance Committee recommended the rejection of the resolution appropriating \$10,000 for work on the public parks. Mr. Epps stated that the resolution had been offered by him in September last, and about the same time the resolution was introduced appropriating \$10,500 for the purchase of the triangular lot on Broad street and Brook avenue. The former measure had been shelved, while the latter had been adopted. After some discussion it was voted to place \$5,000 at the disposal of the Committee on Grounds and Buildings. and Buildings.

and Buildings.

The same committee recommended the rejection of the proposition to repeal the ordinance imposing a penalty of 5 per cent, on gas bills not paid within five days after they become due, and this course prevailed. An adverse report was made on the resolution authorizing the Committee on Grounds and Buildings to employ a janitor for the armories of the Richmond Howitzers and the Stuart Horse Guard at a salary of \$50 per Richmond Howitzers and the Stuart Horse Guard at a salary of 80 per month, and it was defeated, Messrs, Cottell, Donleavy, Landerkin, Trower, Wallerstein, and Glover voting against it.

The Council took similar action in regard to the resolution appropriating Steep for the procuring as a second state of the second state of t

Governor Brown Withdraws from the Kentucky Senatorial Race.

HIS REASONS PURELY PERSONAL. It is Understood That Recent Berenvements, Including the Death

of the Governor's Son, Are the Cruses of the Action.

FRANKFORT, KY., July 1 .- Governor John Young Brown to-night gave out a card withdrawing from the senatorial race. Recent family bereavements in the death of his daughter and the untimely loss of his son are the principal causes for his action. He is for free silver, and it was his purpose to make an active canvass of the State, to begin the day before the murder of his son. The card is as follows:

"Two months ago I decided to withdraw from the contest for United States Senator. A number of my friends have had knowledge of my purpose. I am no longer a candidate. My reasons for this action are purely personal in their character, and the public would not be interested in a statement of them. PI STRABLE CLASS OF IMMIGRANTS

Stre-Enough Farmers from Pennsylvania Buying Virginia Lands-They Like the Old Dominion-May Their Tribe Increase!

WASHINGTON, D. C., July 1 .- (Spe

clal.) -The statement of Hon. F. M. Simmons of North Carolina, that no matter what the national convention may adopt in reference to the currency ques tion the Democrats of his State will fall into line and vote the ticket next year, coincides with the opinions of most of the North Carolina visitors to be met There is a difference of opinion, however, as to the extent of the feeling in favor of the free coinage of silver. The administration people and those whose sympathies are that way seem to think that the sentiment in behalf of the white metal is dying out to a certain extent, but those taking another view insist this is true only as to the larger places in the State. The country people, they insist, are as solidly as ever for silver, and will force the issue.

Virginia visitors do not have a great deal to say on this subject at present. There is nothing going on at present in the State to bring out expressions, and the public men appear to rejoice that this is the case.

IMMIGRANTS.

A Virginian who was in the city to day said that it was not generally known, but it is a fact, that a great many Pennbut it is a fact, that a great many Pennsylvania farmers are moving into the northern part of Virginia, and purchasing lands not supposed to be worth much for agricultural purposes, but in reality are all right if properly handled. The information given about these new settlers is very interesting. It is said they have sold lands they owned in Pennsylvania for as much as \$75 and even \$80 and \$30 per acre, and, with the money, they have come into Vivening and hought what 200 per acre, and, with an have come into Virginia and bought what are known as scrub timber lands for as low a price as 310 per acre. The lands low a price as \$10 per acre. The lands have been cleared up, a little permanent strength in the way of bone and manure added, and in a few years, with an ad-ditional cost all told of certainty not more than \$10 per acre, the Pennsylvan-lans have been able to bring the soil up to about the same producing point reached by the high-priced lands disposed of in the Keystone State. They have also saved a neat surflux for a rainy day be-sides.

The visitor quoted says that all through the northern countles of Virginia there are vast tracts of just such lands that need clearing, and if placed in proper hands can be brought up.

KNOW HOW TO FARM.

The Pennsylvanians who have gone into the State find the climate more to their liking. They know how to farm, Many of them have been used to cultivating hillsides full of rocks, and so thickto reclaim the scrub-timber of Virginia, and in a few years get them into splendid rhape. Some of the nicest-looking farms along the Southern railnews is that others are coming. They can take hold of neglected spots in the countles of Loudoun, Fairfax, Prince Wil-liam, Fauquier, Staffordi Spotsylvania Culpener, and Orange and make then Culpeper, and Orange and make them garden spots in a few years; and it is thought that if the proper efforts were put forth several thousand farmers from the cold and uninviting Northern States could be induced to take up their residences in Virginia. In addition to the better climate, they would be close enough to the Washington, Baltimore, Philadelphia, and New York markets to make farming ray in the fold Dominion.
